

Useful Information

Book your Vehicle

You can either make a reservation directly with ABBYCAR or by using third parties. These Rental Terms and Conditions will be applicable to all reservations regardless if the booking has been made directly with ABBYCAR or by using third parties.

Vehicle Group

Your booking refers to a car group, not to the brand or model shown. All rental companies are utilizing a standard vehicle matrix (called ACRISS or SIPP) to define car models ensuring a like to like comparison of vehicle, hence the “similar” next to a make or model. We guarantee the booked group and in case is not available at your scheduled pickup time, we will upgrade your vehicle at no extra cost.

Luggage

Keep as a general rule that all luggage must fit in the trunk/boot. The bag icon only gives an indication as to what the car boot will take comfortably, but since you are not aware of the exact model you are getting, it is wise to always book a larger group to ensure that your luggage will fit in the trunk/boot. An upgrade in the car group can be offered at any time at the pickup station as subject to availability.

Arrival Flight Number (for airport pick up stations)

You are expected to Show-Up at the time stated on your voucher to pick up your vehicle, or else your booking will be automatically cancelled as a No-Show, after the grace period passes, even if your booking is fully paid. By providing a correct arrival flight number we will hold your booking and you don't have to stress about informing us! We will automatically amend and hold your booking until your flight arrives.

Fuel Policy (Full to Full)

The fuel is not included in the rental rates and is payable by the customer. The Full-Full policy as an indication refers to the general policy that you return the vehicle with the same level of fuel as picked up. We always supply the vehicle with a full tank of fuel but we do not offer refiling services, meaning that if the previous customer returns the vehicle with less fuel, for example with $\frac{3}{4}$ fuel left, we will hand it over to the next customer with $\frac{3}{4}$ full tank and it should be returned the same. To ensure there is no confusion, if the above rotation does not fulfill your needs and you request it “Full to Full”, you must select the “Prepaid Fuel” method, meaning that you will prepay for a full tank of fuel and you will return the vehicle as empty as possible (No refunds will be made for unused fuel).

Safety First

During COVID-19, we have adopted a range of measures to help our customers stay and feel safe before, during and after the rental. Our Shuttle busses and all touch points are disinfected at the start of each day and between each trip. All our employees are equipped with the safety face masks, there are floor markings to help customers keeping the distances from one another, all desks are equipped with plastic safety screens and you will find antibacterial hand gel at every station. After each car is deep-cleaned and disinfected a sticker is placed across the driver's door, if it is untorn, no one has been in the car since it was sanitized.
